Ekistic grid index

The articles in this issue are coded by the scale of settlements and an aspect of an element indicated in the ekistic grid.

The content of each article is classified within an ekistic grid as follows:

- The scale of the settlement(s) with which the article deals is selected from among the 15 ekistic units:

Anthropos	1
Room	2
House	5
Housegroup	40
Small neighborhood	250
Neighborhood	1,500
Small polis	10,000
Polis	75,000
Small metropolis	500,000
Metropolis	4 million
Small megalopolis	25 million
Megalopolis	150 million
Small eperopolis	1,000 million
Eperopolis	7,500 million
Ecumenopolis	50,000 million

- The subjects dealt with in this article are selected from among the subheads of the five ekistic elements. The position of a dot in any square of the grid indicates which of the four subheads is being referred to. If the article arrives at a synthesis of these elements, either in a physical plan or in ekistic theory, the dot is at the top or bottom of the square.

key to placement of subheads

The subheads of the elements are:

NATURE
1. Environmental analysis
2. Resource utilization
3. Land use, landscape
4. Recreation areas

ANTHROPOS
1. Physiological needs
2. Safety, security
3. Affection, belonging, esteem
4. Self-realization, knowledge, esthetics

SOCIETY
1. Public administration, participation and law
2. Social relations, population trends, cultural patterns
3. Urban systems and urban change
4. Economics

SHELLS
1. Housing
2. Service facilities: hospitals, fire stations, etc.
3. Shops, offices, factories
4. Cultural and educational units

NETWORKS
1. Public utility systems: water, power, sewerage
2. Transportation systems: road, rail, air
3. Personal and mass communication systems
4. Computer and information technology

SYNTHESIS: HUMAN SETTLEMENTS
1. Physical planning
2. Ekistic theory

CUMULATIVE INDEX OF CONTENTS OF "EKISTICS"
January-December 1980 (vol. 47)

Articles are listed and cross-indexed under author, country and (up to four) "keywords" indicating their major contents, as well as a letter code. A plus sign (+) following the author's initial(s) indicates that the article has more than one author.

Keyword letter code

D = diagrams
I = illustrations
M = maps
R = references
S = statistical tables and/or graphs
X = simulation and mathematical models, etc.
